

Elm River Township School
Teacher Report: 8/26/19

I am very pleased to inform you that we have three new students who have recently enrolled. There are two kindergarten boys, Justin and Silas, along with a second grade girl, Kera. This brings us up to a total of seven.

I am also very pleased to recommend for your consideration, Greg Nelson, to be formally hired as our new bus driver / custodian / parapro. Greg has experience in all of these areas, so I know he will be a great asset to the district. I also want to thank the Board for their participation during the interview process.

Today, we had our beginning of the year in-service. I feel good about the team we have and am confident that the school year will be a good one. Early on, I will be experimenting with the daily schedule to make it flow as smoothly and effectively as possible.

We still haven't gotten any word back from the Detroit Free Press after their visit on May 7th and 8th. They promised us plenty of notice before the article comes out. Unfortunately, it will not be in time to use for recruiting kids for this school year.

Finally, I want to thank Ron Saari for all he has done for the Elm River School. I'm glad I had a chance to thank him in front of the others at the in-service today. He helped get us through a difficult time when we couldn't find a bus driver/custodian. Thanks again Ron! We wish you the best!

Thank you,

Bruce R. Matson
